

# *sereneview*<sup>®</sup> Scenic Overheads

Research shows that views of natural beauty lower blood pressure, heart rate, anxiety, and pain medication. Sereneview<sup>®</sup> Scenic Overheads come in two styles; solid tiles and backlit luminaires. Solid tiles replace the acoustic tiles in ceiling grids with stunning skylscapes that make a room feel open to the outdoors. The tiles are printed on a 3mm expanded PVC that's fire-rated.

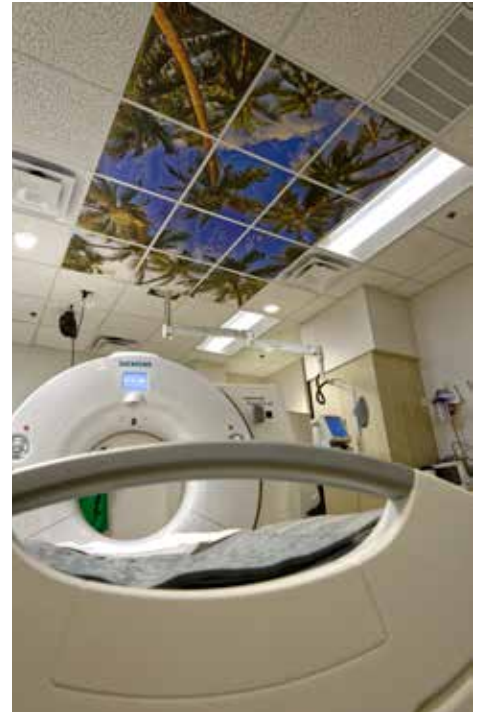

Backlit luminaires replace the diffuser panel in light fixtures to create an open vista to the outside. The luminaires are printed on a fire-rated 1/8" acrylic for smaller sizes and 1/4" for larger sizes. Fixtures, frames and submittal's are available upon request. Visit [www.sereneview.com](http://www.sereneview.com) for more information and to view our full Image Library from renowned photographer Ernesto Rodriguez.
